Housing Made By Visteon

Upgrades your air filter system and saves on maintenance costs

Housing built by Visteon® and fits in same space as the factory installed housing

CARQUEST Filters Replacement time - 5 minutes, compared to 45 minutes for the original design

Lower restriction and higher air flow - all for 1/3 the costs

Cost savings over of existing OEM replacement filters

*Step 1:*

Pre-assembly of our conversion housing is fast and simple

*Step 2:*

The conversion housing fits into the OEM footprint. To install, press the pins on the housing's bottom in the battery tray grommets.

*Step 3:*

Place the CARQUEST Powertrap® air filter in the housing, locking all tabs and clamps.

*Step 4:*

Reconnect wiring harnesses to the MAFS sensor, filter minder, the coolant reservoir and positive battery cable. You're Done!
